

Assignment: _____

Name: _____

Final Points		Capstone	Milestones		Benchmark	Final Score
		100%	80%	60%	40%	
10	Introduction: Explanation of purpose of statistics and type of statistics Description of research goals	Issue is stated clearly and described comprehensively, delivering all relevant information necessary for full understanding	Issue is stated, described, and clarified so that understanding is not seriously impeded by omissions	Issue is stated but description leaves some terms undefined, boundaries undetermined, or background unknown	Issue is stated without clarification or description	
10	Method: Description of participants Description of variables	All elements of the methodology are skillfully developed	Critical elements of the method are appropriately developed, however, more elements are ignored	Critical elements of the methodology are missing, incorrectly developed, or unfocused	Inquiry design demonstrates a misunderstanding of the methodology	
10	Results: <u>Correct</u> statistics and figures Explanation of findings	Provides accurate explanations of information presented in statistics. Makes appropriate inferences based on that information	Provides accurate explanations of information presented in statistics.	Provides somewhat accurate explanations of information in statistics, but makes minor errors related to statistics or interpretation	Attempts to explain information presented in statistics, but draws incorrect conclusions about what the information means	
10	Discussion: Inferences based on results Realistic description of limitations	Conclusions are logical and reflect student's informed evaluation and ability to place evidence and perspectives in priority order	Conclusions are logically tied to a range of information, related outcomes are clearly identified	Conclusions are tied to information (but chosen to fit the desired conclusion); related outcomes are identified	Conclusions are inconsistently tied to some of the information discussed; related outcomes are oversimplified
